And that is precisely what He gave to His church on the day He ascended on high (Ephesians 4:8-12). Further, in His word, He has provided a complete shepherd's handbook that outlines exactly how such shepherds can shepherd well. For stupid shepherds who ignore His counsel, there will be sadness and loss (Jeremiah 10:21). Jim Fleming has spent over four decades studying and ministering as a local church shepherd. Now he is passing along what he has learned as his legacy. For those who do, Pastor Fleming anticipates a fixed and future day when a host of shepherds will join him as they bask in joy before their Chief Shepherd. *Shepherdology 101* will help get you ready for this glorious moment.

gateway worship wake up the world: Watershed Eric R. Riddle, 2009 Watershed: Service in the Wake of Disaster was written with the help of many individuals who have the same goal of describing how Indiana was able to recover from devastating 2008 flooding and tornadoes. With three presidentially declared disasters, nearly every county in the state of Indiana was directly affected. A goal for the book is to help other communities prepare for and recover from disaster. Bartholomew County was not prepared for the flood. The majority of Watershed focuses on Columbus as a case study for coping with disaster without the benefit of a pre-established response and recovery plan. Columbus has learned and will be prepared for future disaster situations. The key learning from the flood recovery and improvements to our local community are also discussed. After failing to find available resources on the subject of local disaster recovery, I felt God call me to write Watershed. I was at a unique place in my life because my employer, Columbus Regional Hospital, was closed for four months due to the flood and allowed me to pursue my passion of flood recovery during that time. The research from the book includes extensive coverage from the Columbus newspaper The Republic, minutes that I took as Secretary of the Bartholomew County Long Term Flood Recovery Team, and over 40 recorded interviews. I interviewed flood-affected individuals, leaders of nonprofit agencies, and members of the Indiana Volunteer Organizations Active in Disaster (INVOAD). The book highlights 17 nonprofit leaders whose organizations played a key role in recovering from the 2008 disasters. From the proceeds of Watershed, I will donate 90% of the net profits to these organizations. The 17 essays in the book add variety and depth to a disaster recovery that requires more than one perspective to accurately convey the complexity of the experience.

Thus, from the 1960s onward, theologians in the global South have embarked on a form of theological construction that has sometimes been described as contextual reflection or contextualized theology. This volume is motivated by the conviction that these efforts have resulted in theological work that is also beneficial for Christians in other parts of the world. The editors have invited Majority World theologians to share their reflections on several themes of Christian faith from their own sociohistorical perspectives but with an unswerving commitment to the authority of Scripture. It is hoped that these fresh reflections will help Christians in the West engage and benefit from the perspectives of fellow believers in the global South.

gateway worship wake up the world: Liverpool: gateway to heaven and hell Neil Deane, 2016-12-09 This book on Liverpool offers the reader many things: a comprehensive social and cultural history; an insider travel guide; an analysis of the city's people and the places they inhabit; the gripping tale of the Beatles in their Liverpool home and an evaluation of the music that preceded their rise and followed their demise in 1970. An inside view of the Scouser's unbreakable bond with his football team and the pub completes the picture. Neil Deane weaves in his own story after joining the proceedings in 1957, relating his everyday experience of life in his home town until his departure in 1979, after which he continues his autobiographical narrative as a self-exiled, committed observer and frequent visitor. He attempts to explain how and why Liverpool is a city on the edge, different from its northern neighbours, misunderstood and even reviled by sections of the southern establishment, and too often making the headlines for all the wrong reasons. Sweeping away lazy clichés, he aims to get the reader that bit closer to the truth. The book is not a typical tourist guide, more an authentic tale told with love and passion, a personal odyssey with heaven and hell present in equal proportions; however, his final message of optimism is that any stranger visiting Liverpool will be uplifted most of all by its people, ever determined to make sure that heaven wins the penalty shoot-out.

Magcamit, 2020-04-08 For many years, the secular world has treated the word “faith” as a jargon that cannot be proven by anything tangible. In *Reason of the Hope*, author Ronie F. Magcamit focuses on ten major faith-related topics or issues asked by young Christians and secular people. He discusses the reliability of scriptures, creation versus evolution, end-time events, reformation, ten commandments, apologetics, life and miracles of Jesus, teachings in parables, the resurrection of Christ, and the second coming of Jesus. Ronie presents some of the usual objections to Christianity and provides practical responses for a new generation of Christians. *Reason of the Hope* encourages you to build your faith in Christ and enables you to help others build their faith as well.

Bui, 2024-06-07 This book argues that the catastrophe of COVID-19 provided a momentous time for groups, institutions, and states to reassess their worldviews and relationship to the entire world. Following multiple case studies across dozens of countries throughout the course of the pandemic, this book is a timely contribution to cultural knowledge about the pandemic and the viral politics at the heart of it. Mapping the various forms of global consciousness and connectivity engendered by the crisis, the book offers the framework of viral worlding, defined as viral forms of relationality, becoming, and communication. It demonstrates how worlding or world-making processes accelerated with the novel coronavirus. New emergent forms of being global went viral to address conditions of inequality as well as forge possibilities for societal transformation. Considering the tumult wrought by the pandemic, Bui analyzes progressive movements for democracy, abolition, feminism, environmentalism, and socialism against the world-shattering forces of capitalism, authoritarianism, racism, and militarism. Focusing on ways the pandemic disproportionately impacted marginalized communities, particularly in the Global South, this book juxtaposes the closing of their lifeworlds and social worlds by hegemonic global actors with increased collective demands for freedom, mobility, and justice by vulnerable people. The breadth and depth of the book thus provides students, scholars, and general readers with critical insights to understanding the world(s) of COVID-19 and collective efforts to build better new ones.
