guiding light actors who have died: Guiding Lights Eric Liu, 2004-12-28 We all need people to help us find the way. In this stirring new book, acclaimed author and educator Eric Liu takes us on a quest for those guiding lights. He shares invaluable lessons from people whose "classrooms" are boardrooms, arenas, concert halls, theaters, kitchens, and places of worship-and in the process, he reveals a surprising path to purpose. As he entered fatherhood and a phase of changing ambitions, Eric Liu set out in search of great mentors. He found much more. He encountered people from all walks of life, from all across the country, with something powerful to pass on about how to change lives. Among those Liu portrays in vivid and fascinating narratives are one of Hollywood's finest acting teachers, who turns a middling young actress into a project for transformation; an esteemed major league pitching coach, haunted by the players he's let down; a rising executive whose eye for untapped talent allows her to rescue a floundering employee; a master clown whose workshop teaches a husband-and-wife team to revamp their relationship, onstage and off; a high school debate coach whose protégée falters at the pinnacle, and thus finds triumph; and a gangland priest who has saved many and yet still must confront the limits of his power to heal. In these pages are remarkable stories of apprenticeship-of failure, hope, and discovery. These are stories of men and women who learned to hear the sound of other people's voices and, in so doing, found their own way to a better and fuller life. As Eric Liu reminds us, these are our stories. Lyrical and accessible, Guiding Lights is a course to benefit any reader, a superb work of narrative nonfiction, and an exciting departure for its accomplished author. This book will change how we live, lead, learn, and love. Pass it on.

guiding light actors who have died: The Fan Who Knew Too Much Anthony Heilbut, 2012-06-19 A dazzling exploration of American culture—from high pop to highbrow—by acclaimed

music authority, cultural historian, and biographer Anthony Heilbut, author of the now classic *The Gospel Sound* (“Definitive” —Rolling Stone), *Exiled in Paradise*, and *Thomas Mann* (“Electric”—Harold Brodkey). In *The Fan Who Knew Too Much*, Heilbut writes about art and obsession, from country blues singers and male sopranos to European intellectuals and the originators of radio soap opera—figures transfixed and transformed who helped to change the American cultural landscape. Heilbut writes about Aretha Franklin, the longest-lasting female star of our time, who changed performing for women of all races. He writes about Aretha’s evolution as a singer and performer (she came out of the tradition of Mahalia Jackson); before Aretha, there were only two blues-singing gospel women—Dinah Washington, who told it like it was, and Sister Rosetta Tharpe, who specialized, like Aretha, in ambivalence, erotic gospel, and holy blues. We see the influence of Aretha’s father, C. L. Franklin, famous pastor of Detroit’s New Bethel Baptist Church. Franklin’s albums preached a theology of liberation and racial pride that sold millions and helped prepare the way for Martin Luther King Jr. Reverend Franklin was considered royalty and, Heilbut writes, it was inevitable that his daughter would become the Queen of Soul. In “The Children and Their Secret Closet,” Heilbut writes about gays in the Pentecostal church, the black church’s rock and shield for more than a hundred years, its true heroes, and among its most faithful members and vivid celebrants. And he explores, as well, the influential role of gays in the white Pentecostal church. In “Somebody Else’s Paradise,” Heilbut writes about the German exiles who fled Hitler—Einstein, Hannah Arendt, Marlene Dietrich, and others—and their long reach into the world of American science, art, politics, and literature. He contemplates the continued relevance of the émigré Joseph Roth, a Galician Jew, who died an impoverished alcoholic and is now considered the peer of Kafka and Thomas Mann. And in “Brave Tomorrows for Bachelor’s Children,” Heilbut explores the evolution of the soap opera. He writes about the form itself and how it catered to social outcasts and have-nots; the writers insisting its values were traditional, conservative; their critics seeing soap operas as the secret saboteurs of traditional marriage—the women as castrating wives; their husbands as emasculated men. Heilbut writes that soaps went beyond melodrama, deep into the perverse and the surreal, domesticating Freud and making sibling rivalry, transference, and Oedipal and Electra complexes the stuff of daily life. And he writes of the “daytime serial’s unwed mother,” Irna Phillips, a Chicago wannabe actress (a Margaret Hamilton of the shtetl) who created radio’s most seminal soap operas—*Today’s Children*, *The Road of Life* among them—and for television, *As the World Turns*, *Guiding Light*, etc., and who became known as the “queen of the soaps.” Hers, Heilbut writes, was the proud perspective of someone who didn’t fit anywhere, the stray no one loved. *The Fan Who Knew Too Much* is a revelatory look at some of our American icons and iconic institutions, high, low, and exalted.

guiding light actors who have died: Unfriendly Witnesses Milly S. Barranger, 2008-06-10 Unfriendly Witnesses: Gender, Theater, and Film in the McCarthy Era examines the experiences of seven prominent women of stage and screen whose lives and careers were damaged by the McCarthy-era "witch hunts" for Communists and Communist sympathizers in the entertainment industry: Judy Holliday, Anne Revere, Lillian Hellman, Dorothy Parker, Margaret Webster, Mady Christians, and Kim Hunter. The effects on women of the anti-Communist crusades that swept the nation between 1947 and 1962 have been largely overlooked by cultural critics and historians, who have instead focused their attention on the men of the period. Author Milly S. Barranger looks at the gender issues inherent in the investigations and at the destructive impact the investigations had on the lives and careers of these seven women—and on American film and theater and culture in general. Issues of gender and politics surface in the women's testimony before the committeemen, labeled "unfriendly" because the women refused to name names. Unfriendly Witnesses redresses the absence of women's histories during this era of modern political history and identifies the enduring strains of McCarthyism in postmillennial America. Barranger recreates the congressional and state hearings that addressed the alleged Communist influence in the entertainment industry and examines in detail the cases of these seven women, including the appearance of actress Judy Holliday before the committee of Senator Pat McCarran, who aimed to limit the immigration of Eastern Europeans; actress Anne Revere and playwright Lillian Hellman, appearing before the House Un-American Activities Committee, sought the protections of the Fifth Amendment with different outcomes; of writer Dorothy Parker, who testified before a New York state legislative committee investigating contributions to "front" groups; and of director Margaret Webster, before Senator Joseph McCarthy's subcommittee, whose aim was the indictment of Senator J. William Fulbright and the U.S. State Department. None escaped subsequent blacklisting, denial of employment, and notations in FBI files that they were threats to national security. Unfriendly Witnesses is enhanced by nine illustrations and extensive excerpts from Red Channels: The Report of Communist Influence in Radio and Television, originally published in 1950 at the height of the Red Scare, and which listed 151 allegedly subversive writers, directors, and performers. Barranger includes the complete entries from Red Channels for the seven women she discusses, which include the "subversive" affiliations that prompted the women's interrogation by the government.

Hischak, 2011-10-06 This biographical dictionary is devoted to the actors who provided voices for all the Disney animated theatrical shorts and features from the 1928 Mickey Mouse cartoon Steamboat Willie to the 2010 feature film Tangled. More than 900 men, women, and child actors from more than 300 films are covered, with biographical information, individual career summaries, and descriptions of the animated characters they have performed. Among those listed are Adriana Caselotti, of Snow White fame; Clarence Nash, the voice of Donald Duck; Sterling Holloway, best known for his vocal portrayal of Winnie the Pooh; and such show business luminaries as Bing Crosby, Bob Newhart, George Sanders, Dinah Shore, Jennifer Tilly and James Woods. In addition, a complete directory of animated Disney films enables the reader to cross-reference the actors with their characters.

guiding light actors who have died: Moving Data Pelle Snickars, Patrick Vonderau, 2012 The iPhone has revolutionized not only how people communicate but also how we consume and produce culture. Combining traditional and social media with mobile connectivity, smartphones have redefined and expanded the dimensions of everyday life, allowing individuals to personalize media as they move and process constant flows of data. Today, millions of consumers love and live by their iPhones, but what are the implications of its special technology on society, media, and culture? Featuring an eclectic mix of original essays, Moving Data explores the iPhone as technological prototype, lifestyle gadget, and platform for media creativity. Media experts, cultural critics, and scholars consider the device's newness and usability--even its lickability--and its biographical story. The book illuminates patterns of consumption; the fate of solitude against smartphone ubiquity; the economy of the App Store and its perceived crisis of choice; and the distance between the accessibility of digital information and the protocols governing its use. Alternating between critical and conceptual analyses, essays link the design of participatory media to the iPhone's technological features and sharing routines, and they follow the extent to which the pleasures of gesture-based interfaces are redefining media use and sensory experience. They also consider how user-led innovations, collaborative mapping, and creative empowerment are understood and reconciled through changes in mobile surveillance, personal rights, and prescriptive social software. Presenting a range of perspectives and arguments, this book reorients the practice and study of media critique.
