shonda rhimes writing class: The Disfigured Face in American Literature, Film, and Television Cornelia Klecker, Gudrun M. Grabher, 2021-11-29 The face, being prominent and visible, is the foremost marker of a person's identity as well as their major tool of communication. Facial disfigurements, congenital or acquired, not only erase these significant capacities, but since ancient times, they have been conjured up as outrageous and terrifying, often connoting evil or criminality in their associations – a dark secret being suggested behind the mask, the disfigurement indicating punishment for sin. Complemented by an original poem by Kenneth Sherman and a plastic surgeon's perspective on facial disfigurement, this book investigates the exploitation of these and further stereotypical tropes by literary authors, filmmakers, and showrunners, considering also the ways in which film, television, and the publishing industry have more recently tried to overcome negative codifications of facial disfigurement, in the search for an authentic self behind the veil of facial disfigurement. An exploration of fictional representations of the disfigured face, this book will appeal to scholars of sociology, cultural and media studies, American studies and literary studies with interests in representations of disfigurement and the Other.

shonda rhimes writing class: *Saving Time* Jenny Odell, 2023-03-07 NEW YORK TIMES BESTSELLER • "The visionary author of *How to Do Nothing* returns to challenge the notion that 'time is money.' . . . Expect to feel changed by this radical way of seeing."—Esquire "One of the most important books I've read in my life."—Ed Yong, author of *An Immense World* A BEST BOOK OF THE YEAR: Harper's Bazaar, Esquire, Chicago Public Library, Electric Lit In her first book, *How to Do Nothing*, Jenny Odell wrote about the importance of disconnecting from the "attention economy" to spend time in quiet contemplation. But how can we reclaim our time? In order to answer this seemingly simple question, Odell took a deep dive into the fundamental structure of our society and found that the clock we live by was built for profit, not people. This is why our lives, even in leisure, have come to seem like a series of moments to be bought, sold, and processed ever more efficiently. Odell shows us how our painful relationship to time is inextricably connected not only to persisting social inequities but to the climate crisis, existential dread, and a lethal fatalism. This dazzling, subversive, and deeply hopeful book offers us different ways to experience time—inspired by pre-industrial cultures, ecological cues, and geological timescales—that can bring within reach a more humane, responsive way of living. As planet-bound animals, we live inside shortening and lengthening days alongside gardens growing, birds migrating, and cliffs eroding; the stretchy quality of waiting and desire; the way the present may suddenly feel marbled with childhood memory; the slow but sure procession of a pregnancy; the time it takes to heal from injuries. Odell urges us to become stewards of these different rhythms of life in which time is not reducible to standardized units and instead forms the very medium of possibility. *Saving Time* tugs at the seams of reality as we know it—the way we experience time itself—and rearranges it, imagining a world not centered on work, the office clock, or the profit motive. If we can "save" time by imagining a life, identity, and source of meaning outside these things, time might also save us.

In recent years, women have radically transformed the television industry both behind and in front of the camera. From Murphy Brown to 30 Rock and beyond, these shows and the extraordinary women behind them have shaken up the entertainment landscape, making it look as if equal opportunities abound. But it took decades of determination in the face of outright exclusion to reach this new era. In this “sharp, funny, and gorgeously researched” (Emily Nussbaum, *The New Yorker*) book, veteran journalist Joy Press tells the story of the maverick women who broke through the barricades and the iconic shows that redefined the television landscape starting with Diane English and Roseanne Barr—and even incited controversy that reached as far as the White House. Drawing on a wealth of original interviews with the key players like Amy Sherman-Palladino (*Gilmore Girls*), Jenji Kohan (*Orange Is the New Black*), and Jill Soloway (*Transparent*) who created storylines and characters that changed how women are seen and how they see themselves, this is the exhilarating behind-the-scenes story of a cultural revolution.
