1. Historical Figures and Their Roles

One of the primary focuses of bust worksheets is helping students recognize influential individuals who shaped America's history. For example, the worksheet might include a list of figures like George Washington, Harriet Tubman, or Thomas Edison, paired with questions about their contributions and challenges they faced.

Engaging students with short biographies or matching activities where they connect names to achievements helps solidify their understanding of these figures beyond mere names.

2. Timeline and Chronology

Understanding the sequence of events is crucial for grasping cause and effect in history. Worksheets often feature timeline exercises where students place events from the documentary in chronological order, helping them see how one development led to another.

America The Story of Us covers themes like industrialization, immigration, war, and civil rights. A well-structured worksheet will prompt students to explore these themes by asking open-ended questions or having them analyze how specific events fit into broader historical trends.

For instance, students might be asked how the Industrial Revolution changed American society or what challenges immigrants faced during westward expansion.

4. Visual and Contextual Analysis

america the story of us bust worksheet: Mothering Rhetorics Lynn O'Brien Hallstein, 2020-03-03 Once only a topic among women in the private sphere, motherhood and mothering have become important intellectual topics across academic disciplines. Even so, no book has yet devoted a sustained look at how exploring mothering rhetorics – the rhetorics of reproduction (rhetorics about the reproductive function of women/mothers) and reproducing rhetorics (the rhetorical reproduction of ideological systems and logics of contemporary culture) expand our understanding of mothering, motherhood, communication, and gender. *Mothering Rhetorics* begins to fill this gap for scholars and teachers interested in the study of mothering rhetorics in their historical and contemporary permutations. The contributions explore the racialized rhetorical contexts of maternity; how fixing food is thought to fix families, while also regulating maternal activities and identity; how Black female breastfeeding activists resisted the exploitation of African-American mothers in Detroit; how women in pink-collar occupations both adhere to and challenge maternity leave discourses by rhetorically positioning their leaves as time off and (dis)ability; identifying verbal and nonverbal shaming practices related to unwed motherhood during the mid-twentieth century; and redefining alternative postpartum placenta practices. This book was originally published as a special issue of *Women's Studies in Communication*.

america the story of us bust worksheet: Ruth Crawford Seeger : A Composer's Search for American Music Judith Tick Professor of Music Northeastern University, 1997-08-18 Ruth Crawford Seeger (1901-1953) is frequently considered the most significant American female composer in this century. Joining Aaron Copland and Henry Cowell as a key member of the 1920s musical avant-garde, she went on to study with modernist theorist and future husband Charles Seeger, writing her masterpiece, *String Quartet* 1931, not long after. But her legacy extends far beyond the cutting edge of modern music. Collaborating with poet Carl Sandburg on folk song arrangements in the twenties, and with the famous folk-song collectors John and Alan Lomax in the 1930s, she emerged as a central figure in the American folk music revival, issuing several important books of transcriptions and arrangements and pioneering the use of American folk songs in children's music education. Radicalized by the Depression, she spent much of the ensuing two decades working aggressively for social change with her husband and stepson, the folksinger Pete Seeger. This engrossing new biography emphasizes the choices Crawford Seeger made in her roles as composer, activist, teacher, wife and mother. The first woman to win a Guggenheim Foundation Fellowship in music composition, Crawford Seeger nearly gave up writing music as the demands of family, politics, and the folk song movement intervened. It was only at the very end of her life, with cancer sapping her strength, that she returned to composing. Written with unique insight and compassion, this book offers the definitive treatment of a fascinating twentieth-century figure.
