book in sunlight a beautiful garden kathleen cambor: *Children of the Mirna Valley* Frank Bevc, 2019-07-31 In the quiet farmland of southeastern Slovenia the people of the Mirna Valley endured rule by German lords and the Habsburg Empire for over a thousand years. In the early 1600s, the Bevc Family worked the land in the small village of _entrupert. Three generations and over a hundred years later, their descendants moved to the Debenec hills overlooking the Mirna Valley. The family acquired more land and spread to the nearby towns of Mokronog and Mirna. One Bevc generation, a family of eleven children, found different futures in America or Slovenia. Most traded the green hills and hard work of farming for the harsh life of mining coal in a smoky, industrial town. Each withstood hardships so that their children would have a better life. Many of those children fought in World War II. In Slovenia that meant occupation and partisan resistance; in America, sons went off to war in Europe and the Pacific.

book in sunlight a beautiful garden kathleen cambor: *Mega-Dams in World Literature* Margaret Ziolkowski, 2024-04-15 *Mega-Dams in World Literature* reveals the varied effects of large dams on people and their environments as expressed in literary works, focusing on the shifting attitudes toward large dams that emerged over the course of the twentieth century. Margaret Ziolkowski covers the enthusiasm for large-dam construction that took place during the

mid-twentieth-century heyday of mega-dams, the increasing number of people displaced by dams, the troubling environmental effects they incur, and the types of destruction and protest to which they may be subject. Using North American, Native American, Russian, Egyptian, Indian, and Chinese novels and poems, Ziolkowski explores the supposed progress that these structures bring. The book asks how the human urge to exploit and control waterways has affected our relationships to nature and the environment and argues that the high modernism of the twentieth century, along with its preoccupation with development, casts the hydroelectric dam as a central symbol of domination over nature and the power of the nation state. Beyond examining the exultation of large dams as symbols of progress, *Mega-Dams in World Literature* takes a broad international and cultural approach that humanizes and personalizes the major issues associated with large dams through nuanced analyses, paying particular attention to issues engendered by high modernism and settler colonialism. Both general and specialist readers interested in human-environment relationships will enjoy this prescient book.

The greatest natural disaster of the 19th century, the Johnstown Flood, confirms his choice to be a journalist, and Jamie goes on to cover Pittsburgh's business titans, labor strikes, and assassination attempts. While reporting on the unions of the era, he is exposed to a very different world, symbolized by his infatuation with a mysterious woman under the sway of an Eastern European anarchist. Jamie struggles with balancing the access he has to Pittsburgh's business elite while maintaining the objectivity to tell the hard truths about those same people. Ultimately, he must thwart a terrorist plot that could disrupt the massive corporate merger that would restructure the nation's largest industry: steel.
