i want a friend by tony ross: Visualizing Feeling Susan Best, 2011-06-30 Is late modern art 'anti-aesthetic'? What does it mean to label a piece of art 'affectless'? These traditional characterizations of 1960s and 1970s art are radically challenged in this subversive art history. By introducing feeling to the analysis of this period, Susan Best acknowledges the radical and exploratory nature of art in late modernism. The book focuses on four highly influential female artists--Eva Hesse, Lygia Clark, Ana Mendieta and Theresa Hak Kyung Cha--and it explores how their art transformed established avant-garde protocols by introducing an affective dimension. This aspect of their work, while often noted, has never before been analyzed in detail. Visualizing Feeling also addresses a methodological blind spot in art history: the interpretation of feeling, emotion and affect. It demonstrates that the affective dimension, alongside other materials and methods of art, is part of the artistic means of production and innovation. This is the first thorough re-appraisal of aesthetic engagement with affect in post-1960s art.

i want a friend by tony ross: Accessing the Classics La Vergne Rosow, 2005-12-30 Help readers improve reading skills while stimulating their appreciation and increasing their understanding of great literature. Using a scaffolding approach, this guide leads readers from simple and engaging reads to more challenging texts, and simultaneously cultivates their interest and skills. An invaluable resource for middle and high school, ABE and ESL educators, as well as for readers' advisors. All readers—even those still learning to speak English—can enjoy the delights and benefits of great literature with the help of this motivational and practical book guide. Rosow takes you on a journey through the history of Western literature, beginning with ancient myths and moving to medieval tales and classics of the Renaissance, Romantic Movement, and Modernism. Along the way, she shows you how to give readers easy access to some of the best literature of all time. Scores of collections focus on such ancient and enduring stories as Gilgamesh, Beowulf, the tales of Chaucer; historical masterpieces of William Shakespeare, Jane Austen, Edgar Allan Poe, Charles Dickens; and stellar names of more recent times, such as Virginia Woolf, John Steinbeck, Ernest Hemingway, and J.R.R. Tolkien. Each carefully selected collection lists an assortment of titles, ranging in reading level and arranged progressively from simple renditions, such as picture book re-tellings, through more advanced selections and readings where audio versions and simpler formatting support the reader, and on to the most challenging reads. Author profiles and narrative, as well as detailed descriptions of each title provide further insights into the story lines and features of the books; while building a scaffold of reading experience and knowledge to help readers better understand the texts. For example, the Mark Twain collection begins with a brief biographical sketch of the author, followed by descriptions of two illustrated books about the author and two readers' theatre skits based on his work. A collection of Twain's short stories is recommended next, and then several illustrated versions of his novels, and an illustrated edition of Twain's memoir, *Life on the Mississippi*, which is supported by an audiotope version. Each recommended title is rated as start here, next read, support here, or challenging read; and related reads, and audio and video versions are listed when appropriate. The author also notes author and student favorites, titles with exceptional illustrations, and other features of interest. Focus is on authors and titles of the Western canon that are generally available in library collections. Because some of the titles cited are older editions, this is a valuable collection development tool in libraries; as well as an essential resource for readers' advisors, Adult Basic Education, and English as Second Language educators, and young adult educators and librarians. i want a friend by tony ross: Challenging and Controversial Picturebooks Janet Evans, 2015-06-05 It is often assumed that picturebooks are for very young readers because of their emphasis on the illustrations and their scarcity of text; however, there are increasing numbers of picturebooks where the age of the implied reader is questionable. These are picturebooks whose controversial subject matter and unconventional, often unsettling style of illustration challenge the reader, pushing them to question and probe deeper to understand what the book is about. In addition to the book challenging the reader, the reader often challenges the book in an attempt to understand what is being said. These increasingly popular picturebooks work on many different levels; they are truly polysemic and worthy of in-depth analysis. They push the reader to ask questions and in many instances are intrinsically philosophical, often dealing with fundamental life issues. Challenging and Controversial Picturebooks examines these unconventional, non-conformist picturebooks, considering what they are, their audience and their purpose. It also considers: Children's and adults' thoughts on these kinds of picturebooks. How challenging and unsettling wordless picturebooks can play with the mind and promote philosophical thought. What creates non-conformity and strangeness ... is it the illustrations and their style, the subject matter or a combination of both? Why certain countries create, promote and accept these picturebooks more than others. Why certain picturebooks are censored and what factors are in play when these decisions are made. The role of publishers in translating and publishing these picturebooks. Children's creative and critical responses to strange, unsettling and often disturbing visual texts. This inspiring and thought-provoking volume explores the work of a number of highly respected, international picturebook experts and includes an exclusive interview with the legendary Klaus Flugge, Managing Director of Andersen Press, one of the few remaining independent children's book publishers in England. It is an indispensable reference for all interested in or working with picturebooks, including researchers, students in higher and teacher education, English advisors/inspectors, literacy consultants and classroom teachers.
