what it takes by richard ben cramer: What It Takes Richard Ben Cramer, 2011-08-02 Before Game Change there was What It Takes, a ride along the 1988 campaign trail and “possibly the best [book] ever written about an American election” (NPR). Written by Pulitzer Prize-winning journalist and New York Times-bestselling author Richard Ben Cramer, What It Takes is “a perfect-pitch rendering of the emotions, the intensity, the anguish, and the emptiness of what may have been the last normal two-party campaign in American history” (Time). An up-close, in-depth look at six candidates—George H. W. “Poppy” Bush, Bob Dole, Joe Biden, Michael Dukakis, Richard Gephardt, and Gary Hart—this account of the 1988 US presidential campaign explores a unique moment in history, with details on everything from Bush at the Astrodome to Hart’s Donna Rice scandal. Cramer also addresses the question we find ourselves pondering every four years: How do presumably ordinary people acquire that mixture of ambition, stamina, and pure shamelessness that allows them to throw their hat in the ring as a candidate for leadership of the free world? Exhaustively researched from thousands of hours of interviews, What It Takes creates powerful portraits of these Republican and Democratic contenders, and the consultants, donors, journalists, handlers, and hangers-on who surround them, as they meet, greet, and strategize their way through primary season chasing the nomination, resulting in “a hipped-up amalgam of Teddy White, Tom Wolfe, and Norman Mailer” (Los Angeles Times Book Review). With timeless insight that helps us understand the current state of the nation, this “ultimate insider’s book on presidential politics” explores what helps these people survive, what makes them prosper, what drives them, and ultimately, what drives our government—human beings, in all their flawed glory (San Francisco Chronicle).

Binyamin Appelbaum legt eine originelle Ideengeschichte und ein unvergessliches Porträt der Wirtschafts-Wissenschaftler vor, die in der Mitte des 20. Jahrhunderts zum weltweiten Aufstieg des Neo-Liberalismus beigetragen haben. Sie

waren die Vertreter des deregulierten Marktes: Milton Friedman mit seinen libertären Idealen, Arthur Laffer, dessen Kurve auf einer Cocktailserviette dazu beitrug, Steuersenkungen zu einem wesentlichen Bestandteil konservativer Wirtschaftspolitik zu machen, oder Thomas Schelling, der dem menschlichen Leben einen monetären Wert beimessen wollte. Ihre Grundüberzeugung? Die Regierungen sollten aufhören zu versuchen, die Wirtschaft zu steuern. Ihr Leitsatz? Die Märkte würden ein stetiges Wachstum bringen und sicherstellen, dass alle von den Vorteilen profitieren. Aber die Ökonomen konnten ihr Versprechen auf breiten Wohlstand nicht einlösen. Und der Glaube an den uneingeschränkten Markt ging auf Kosten der wirtschaftlichen Gleichheit, der Stabilität liberaler Demokratien und zukünftiger Generationen. what it takes by richard ben cramer: *Off Script* Josh King, 2016-04-26 Donald Trump won election as the 45th President of the United States by studying American political stagecraft and learning what helped previous candidates succeed and doomed others to failure. A figure on the periphery of campaigns for decades, he glided down the Trump Tower escalator on June 16, 2015, declared his candidacy and took his place, permanently, as an actor in the country's greatest spectacle. Twenty-eight years earlier, at the dawn of what Josh King calls "The Age of Optics" in *OFF SCRIPT: An Advance Man's Guide to White House Stagecraft, Campaign Spectacle and Political Suicide*, Trump began to position himself for his eventual run for the Oval Office. Pictured at the foot of that same gilded escalator, he posed at the foot of that same escalator for a cover story profile in *TIME* magazine. "This Man May Turn You Green With Envy—Or Just Turn You Off," read the first part of *TIME*'s headline in January 1989. "Flaunting It is the Game, and TRUMP is the name," the headline concluded. The cover story came just after Massachusetts Governor Mike Dukakis lost in a landslide to Vice President George H.W. Bush, in part because Dukakis made the disastrous decision to ride in an M1A1 Abrams tank in Sterling Heights, Michigan less than two months before the election. Why did Dukakis make that ride, and why was it so deadly? Indeed, in each election that followed, why did George Bush, Bob Dole, Al Gore, John Kerry, John McCain and Mitt Romney make similar mistakes that cost them dearly at the polls? These are the questions that Josh King answers in *OFF SCRIPT*. King, who served as Director of Production in Bill Clinton's White House and later was host of SiriusXM Satellite Radio's long-running "Polioptics: The Theater of Politics," brings readers on a wild ride over the last thirty years of the Age of Optics, from Ronald Reagan's mastery of image to Barack Obama's "Vanilla Presidency" to, ultimately, the faceoff between Hillary Clinton and Trump. As one of the White House's most creative "advance men," skilled at employing the tools to tell help tell the president's daily story, and creating the scenes that the media can't resist turning into news packages and front page photos, King pulls back the curtain on the behind-the-scenes alchemy of political stagecraft. King's personal account, in-depth interviews, and detail-rich stories, and his unique angle on what drives headlines, makes news, and wins elections will serve as an indispensable companion to those keeping a close eye on the Trump presidency.

(He also almost died on a golf course while in office.) How John F. Kennedy's touch-football games with family were knowing plays to polish the Camelot mystique. People might not have related to the aloof and awkward Richard Nixon but, hey, he would bowl a few frames just like them. Ronald Reagan didn't just play the part of "The Gipper" for the silver screen, but truly adopted the famous footballer's never-say-die persona. George H.W. Bush once ran a horseshoe league from the White House - with a commissioner and brackets! (He would later claim to have come up with the fan expression, "You da man.") Bill Clinton's Arkansas Razorback

fandom was so intense that he could be found shouting at the referees from a box at the basketball national championship game in 1994. George W. Bush's not only owned the Texas Rangers but also threw out the most iconic first pitch ever in the 2001 World Series. What really went down when Barack Obama played pickup hoops with the North Carolina Tarheels. (He later won the state by .3 percent of the vote.) Donald Trump is the only president ever featured in a professional wrestling storyline—and everything real and fake that went with that. In the pages of *POWER PLAYERS*, a love of sports shines through as the key to understanding who these presidents really were and how they chose to play by the rules, occasionally bluff or cheat, all the while coaching the country into a few quality wins and some notorious losses.

what it takes by richard ben cramer: *Moral Vision* Marvin Olasky, 2024-02-13 A man's character shows its stamp repeatedly during a career. In *The American Leadership Tradition* Olasky has many lessons to offer. For the cynical, he reminds us that it is not true that they all do it, as the lives of Andrew Jackson and Grover Cleveland can attest. For the nostalgic, he reminds us that there have been principled men, like George Washington, alongside unprincipled ones, like Henry Clay, from the beginning. After reading this book it will be impossible to argue that John Kennedy's womanizing reflected a side of him that had absolutely nothing to do with his presidency, or that Abraham Lincoln's rectitude was unconnected with his greatness. Olasky shows that faithfulness in marriage may be no guarantee of faithfulness to the country, but faithlessness is a leading indicator of trouble. Leaders who break a large vow to one person find it easy to break relatively small vows to millions. .

what it takes by richard ben cramer: *Nothin' But Good Times Ahead* Molly Ivins, 2010-03-31 She's back. Molly Ivins, our most perceptive, outrageously funny political commentator, has given us an uproarious new book. In *Nothin' But Good Times Ahead*, Ivins proved that no one has a steadier gaze or a quicker trigger finger, as she hits the bull's-eye in such targets as George Bush, Bill Clinton, Camille Paglia, the Clarence Thomas hearings, and the ethics-twisting, English-slaughtering pols of her beloved Texas. Here's Molly on: The 1992 Republican Convention: Many people did not care for Pat Buchanan's speech; it probably sounded better in the original German. Texas politics: Better than the zoo, better than the circus, rougher than football, and even more aesthetically satisfying than baseball. Gibber Lewis, former House Speaker of the Texas State Legislature: He once announced, 'This is unparalyzed in the state's history. Another Gibberism: It could have had ramifistations in the hilterlands.

Durch überragende Kompetenz? Durch unermüdlichen Einsatz? Nein, es sind andere unterschätzte Fähigkeiten, die im Berufsleben oft den kleinen Unterschied machen: der perfekte Händedruck, das richtige Lächeln, unterhaltsamer Smalltalk. Mit viel Humor erläutert Ross McCammon die unausgesprochenen Benimmregeln des Arbeitslebens. Ein Handbuch für Aufsteiger!

what it takes by richard ben cramer: *The Boy Who Could Change the World* Aaron Swartz, 2016-02-01 In January 2013, Aaron Swartz, under arrest and threatened with thirty-five years of imprisonment for downloading material from the JSTOR database, committed suicide. He was twenty-six years old. But in that time he had changed the world we live in: reshaping the Internet, questioning our assumptions about intellectual property, and creating some of the tools we use in our daily online lives. Besides being a technical genius and a passionate activist, he was also an insightful, compelling, and cutting critic of the politics of the Web. In this collection of his writings that spans over a decade he shows his passion for and in-depth knowledge of intellectual property, copyright, and the architecture of the Internet. *The Boy Who Could Change the World* contains the life's work of one of the most original minds of our time.
