Group Counseling for School Counselors: Enhancing Student Support Through Collaborative Care

Group counseling for school counselors offers an invaluable approach to supporting students in educational settings. Unlike individual sessions, group counseling creates a dynamic environment where students can share experiences, learn from peers, and develop essential social and emotional skills. For school counselors, mastering this method not only broadens their toolkit but also addresses common challenges such as social anxiety, behavioral issues, and academic stress in a collaborative way.

Understanding Group Counseling for School Counselors

Group counseling is a therapeutic process where a small group of students meet regularly with a counselor to discuss issues, share challenges, and develop coping strategies. For school counselors, this format is particularly effective because it leverages peer support, reduces feelings of isolation, and fosters a sense of community among participants.

Why Group Counseling Matters in Schools

Schools can be stressful environments for many students. Academic pressures, social dynamics, family issues, and mental health concerns often intersect, making it difficult for students to manage on their own. Group counseling provides a structured space to address these challenges collectively. It encourages empathy, improves communication skills, and helps students recognize that they are not alone in their struggles.

Moreover, group counseling can be a more efficient way for school counselors to serve multiple students simultaneously, especially when resources are limited. It also promotes resilience and self-efficacy as students witness positive changes in their peers.

Key Benefits of Group Counseling for School Counselors

When school counselors incorporate group counseling into their practice, they unlock several advantages for both themselves and their students. Some of these benefits include:

- **Peer Learning and Support:** Students gain insights and encouragement from classmates who share similar experiences.
- **Enhanced Social Skills:** Group settings provide a safe place to practice communication, conflict resolution, and cooperation.
- **Increased Engagement:** Students often feel more motivated and less stigmatized when participating in groups rather than one-on-one sessions.
- **Cost-Effectiveness:** Counselors can address common issues in a single session, making better use of limited time and resources.
- **Normalization of Problems:** Hearing others' stories helps students understand that their challenges are common and manageable.

Implementing Effective Group Counseling Sessions

For school counselors new to group counseling, planning and facilitation are critical to success. Here are some practical tips to consider:

1. Define Clear Objectives

Before forming a group, identify the specific goals. Are you addressing anxiety, improving social skills, or helping with grief? Clear objectives help shape the group's structure and guide session content.

2. Careful Group Composition

Selecting participants is essential. Groups often work best when members have similar issues or developmental stages. Balancing group size—usually between 6 to 8 students—ensures everyone has a chance to participate.

3. Establish Group Norms

At the outset, set clear guidelines around confidentiality, respect, and participation. Creating a safe atmosphere encourages openness and trust among group members.

4. Use Evidence-Based Techniques

Incorporate strategies such as cognitive-behavioral activities, role-playing, and mindfulness exercises to engage students actively and foster skill development.

5. Monitor Group Dynamics

Pay attention to interactions, ensuring no one dominates the conversation and that quieter members are encouraged to share. Address conflicts promptly to maintain a positive environment.

Common Types of Groups in School Counseling

School counselors often tailor group counseling to fit the unique needs of their student population. Some popular group formats include:

Social Skills Groups

These focus on helping students improve interpersonal communication, build friendships, and navigate social challenges.

Grief and Loss Groups

Designed for students coping with the death of a loved one or other significant losses, providing emotional support and coping strategies.

Anger Management Groups

Help students recognize triggers, develop self-control, and express emotions constructively.

Academic Support Groups

Address stress, time management, and motivation issues related to school performance.

Mental Health Awareness Groups

Raise understanding about anxiety, depression, and other conditions, reducing stigma and promoting help-seeking behavior.

Challenges and Solutions in Group Counseling for School Counselors

While group counseling has many benefits, school counselors may encounter obstacles in implementation.

Managing Confidentiality Concerns

Students sometimes worry about privacy when sharing in groups. Counselors must emphasize the importance of confidentiality and create a culture of respect. Establishing clear group rules helps reassure participants.

Engaging Reluctant Participants

Some students may be hesitant or resistant to group work. Using icebreakers, incorporating interactive activities, and allowing students to set personal goals can increase engagement.

Time and Resource Constraints

Balancing group counseling with other counselor duties can be challenging. Prioritizing groups based on student needs and collaborating with teachers or administrators can optimize scheduling.

Handling Diverse Needs

Groups may include students with varying personalities and issues. Skilled facilitation is required to ensure inclusivity and address individual concerns without detracting from group cohesion.

Training and Professional Development for

School Counselors

To maximize the effectiveness of group counseling, school counselors benefit from ongoing education and training. Workshops on group dynamics, trauma-informed care, and culturally responsive counseling enrich their skills. Additionally, supervision or consultation with experienced peers provides valuable feedback and support.

Integrating research-based approaches and staying updated on mental health trends allows counselors to adapt groups to changing student needs. Professional organizations and online courses offer a wealth of resources tailored to school counseling contexts.

The Role of Technology in Group Counseling

With advancements in digital tools, school counselors can expand group counseling beyond the traditional setting. Virtual group sessions offer flexibility for students who might face barriers such as transportation or scheduling conflicts.

Online platforms with secure video conferencing enable real-time interaction, while apps and forums can supplement sessions by providing additional resources and peer support. However, counselors must ensure confidentiality and ethical standards are maintained when using technology.

Encouraging Collaboration with Teachers and Parents

Group counseling for school counselors is most effective when it is part of a broader support network. Collaborating with teachers helps identify students who may benefit from groups and reinforces skills learned in sessions.

Engaging parents and guardians through communication and education about group counseling can foster a supportive home environment. This holistic approach ensures students receive consistent encouragement and understanding both in and out of school.

Harnessing the power of group counseling, school counselors can create meaningful change in students' lives. By facilitating connections, building resilience, and fostering emotional growth, group counseling becomes a cornerstone of comprehensive student support in schools. As counselors continue to refine their group facilitation skills and embrace innovative practices, the impact of this approach will only grow stronger in nurturing

healthy, thriving student communities.

Frequently Asked Questions

What are the key benefits of group counseling for school counselors?

Group counseling allows school counselors to address common issues among students efficiently, foster peer support, enhance social skills, and create a safe environment for sharing experiences and coping strategies.

How can school counselors effectively manage group dynamics during counseling sessions?

School counselors can manage group dynamics by establishing clear rules, encouraging respectful communication, monitoring interactions, addressing conflicts promptly, and promoting inclusivity to ensure all members feel heard and supported.

What are some common topics addressed in group counseling sessions in schools?

Common topics include social skills development, bullying prevention, coping with anxiety and stress, grief and loss, academic motivation, and conflict resolution.

How do school counselors assess the effectiveness of group counseling programs?

Effectiveness can be assessed through pre- and post-group surveys, feedback from students and teachers, observation of behavioral changes, attendance records, and tracking academic or social improvements over time.

What strategies can school counselors use to encourage student participation in group counseling?

Counselors can build trust, create a welcoming atmosphere, ensure confidentiality, use engaging activities, involve students in setting group goals, and communicate the benefits of group counseling to students and parents.

Additional Resources

Group Counseling for School Counselors: Enhancing Student Support Through Collaborative Strategies

group counseling for school counselors represents a vital component in the multifaceted role of educational professionals tasked with fostering student development, emotional wellness, and academic success. As schools increasingly recognize the complexity of student needs, group counseling emerges as an effective intervention strategy that allows school counselors to address common challenges in a collective environment. This approach not only maximizes counselor resources but also leverages peer support dynamics, fostering resilience and social skills among participants.

The Role of Group Counseling in School Settings

Group counseling for school counselors functions as a structured process where students with shared concerns or developmental goals come together under the guidance of a trained counselor. This modality is distinct from individual counseling in that it capitalizes on group interaction as a therapeutic tool. Participants benefit from shared experiences, normalization of feelings, and the opportunity to develop social competencies in a safe, supportive setting.

Recent educational research emphasizes the growing demand for mental health services within schools, highlighting the critical need for scalable interventions. According to the American School Counselor Association (ASCA), group counseling can effectively address issues such as anxiety, depression, social skills deficits, and behavioral challenges, while simultaneously promoting academic achievement and career readiness.

Benefits of Group Counseling for School Counselors

One key advantage of group counseling is its efficiency. School counselors often serve large student populations, which can limit the availability of one-on-one sessions. Group interventions enable counselors to extend their reach while maintaining quality support. Additionally, group settings foster peer learning, where students can model positive behaviors and coping strategies.

Another significant benefit lies in the development of interpersonal skills. Through group counseling, students practice communication, empathy, conflict resolution, and teamwork—skills essential for both academic and social success. The collective environment also diminishes feelings of isolation, especially for students facing stigmatized issues such as grief, bullying, or family disruptions.

Implementing Group Counseling Programs: Strategies and Considerations

School counselors must carefully design group counseling programs to ensure they meet student needs and align with school policies. Effective groups are typically small, ranging from 6 to 10 students, allowing for meaningful interaction without overwhelming participants. Counselors should conduct thorough assessments to identify common themes that warrant group formation, such as stress management or social skills enhancement.

Types of Group Counseling Approaches

The choice of group counseling modality depends on the objectives and student demographics. Common approaches include:

- **Psychoeducational Groups:** Focus on teaching specific skills or knowledge, such as study habits or anger management.
- **Support Groups:** Provide emotional support for students dealing with similar life experiences, like parental divorce or loss.
- **Therapeutic Groups:** Aim to address deeper psychological issues through facilitated discussion and activities.
- **Task/Work Groups:** Engage students in collaborative projects that build cooperation and problem-solving abilities.

Each type demands different counselor competencies and preparation, including establishing group norms, confidentiality agreements, and clear goals.

Challenges in Group Counseling for School Counselors

Despite its benefits, group counseling presents unique challenges. One significant obstacle is managing group dynamics—dominant personalities can overshadow quieter members, while conflicts may arise that require skilled mediation. Additionally, confidentiality is more complex in group settings, necessitating explicit guidelines and trust-building exercises.

Time constraints within the school day and limited physical space can also impede group counseling implementation. Counselors must advocate for institutional support and collaborate with administrators to secure appropriate resources.

Measuring Effectiveness and Outcomes

Evaluating the impact of group counseling programs is crucial for continuous improvement and demonstrating value to stakeholders. School counselors can employ both qualitative and quantitative measures, such as:

1. Pre- and post-intervention surveys assessing changes in student attitudes or behaviors.
2. Attendance and participation rates as indicators of engagement.
3. Feedback from students, parents, and teachers regarding perceived benefits.
4. Academic performance and disciplinary records to identify correlations with group participation.

Data-driven approaches not only inform program refinement but also support grant applications and policy advocacy efforts.

Technological Integration in Group Counseling

With the rise of digital tools, some school counselors are exploring virtual group counseling formats. Online platforms can increase accessibility, especially for students who face barriers to in-person participation. However, virtual groups require adaptations in facilitation style and heightened attention to confidentiality and engagement techniques.

Professional Development and Training for School Counselors

To effectively deliver group counseling services, school counselors must engage in ongoing professional development. Training often covers group facilitation skills, cultural competence, crisis intervention, and ethical considerations. Many counseling certification programs now emphasize group work competencies, reflecting its growing importance.

Furthermore, counselors benefit from supervision and peer consultation to navigate complex group scenarios and enhance their practice. Professional organizations such as ASCA provide resources, guidelines, and networking opportunities to support counselors in this domain.

Best Practices for Successful Group Counseling

Successful group counseling hinges on certain best practices that school counselors can adopt:

- **Clear Objectives:** Define specific, measurable goals aligned with student needs.
- **Careful Group Composition:** Select members thoughtfully to ensure compatibility and shared purpose.
- **Establishing Trust:** Use icebreakers and confidentiality agreements to foster a safe environment.
- **Active Facilitation:** Guide discussions to balance participation and address conflicts constructively.
- **Continuous Evaluation:** Monitor progress and solicit feedback for ongoing adjustment.

Adhering to these principles can maximize the therapeutic and developmental benefits of group counseling.

The Future of Group Counseling in Schools

As awareness of student mental health continues to rise, group counseling for school counselors is poised to become an even more integral part of comprehensive school counseling programs. Emerging trends include integrating trauma-informed practices, culturally responsive approaches, and technology-enhanced interventions.

Moreover, interdisciplinary collaboration between counselors, teachers, administrators, and families will likely strengthen the effectiveness of group counseling initiatives. By positioning group counseling as a proactive, preventative strategy, schools can better address the complex social-emotional challenges facing today's youth.

In this evolving landscape, school counselors who harness the potential of group counseling stand to make a significant impact on the holistic development of their students, promoting healthier, more resilient school communities.

group counseling for school counselors: Group Counseling for School Counselors Greg Brigman, Barbara Earley Goodman, 2001 A field-tested resource designed to help counselors educate students in areas such as interpersonal communication, conflict management, and relationship building.

group counseling for school counselors: *Group Counseling in K-12 Schools* Kenneth R. Greenberg, 2003 This comprehensive and practical text on how to conduct Group Counseling in K-12 Schools focuses on practice rather than on the theories and research that underlie group counseling. Group Counseling in Schools covers the topic of group counseling from initiation to termination at all school levels. The text views group counseling as an integral component of a comprehensive guidance and counseling program, covering such topics as the importance of enhancing the visibility of guidance and counseling programs in order to facilitate group counseling; how to encourage cooperation from teachers, administrators, and parents; selecting group topics; screening procedures for prospective group members; developing group plans; determining the size of groups; facilitating the scheduling of group counseling; multicultural issues in group counseling; evaluating group counseling; and professional issues related to group counseling in schools. The text stresses the importance of the school counselor as an active participant in counseling, whether counseling is being done individually or in a group. The role of the active counselor is discussed along with the skills needed for becoming an effective school counselor.

group counseling for school counselors: *School Based Group Counseling* Christopher A. Sink, Cher Edwards, Christie Eppler, 2011-05-16 Specifically focused on the school counseling profession, the cutting-edge new SCHOOL BASED GROUP COUNSELING delivers a professional, comprehensive, and well-balanced group counseling text for K-12 preservice school counselors. Combining theory, research, case studies, real-world examples, and plenty of hands-on material, this exciting new First Edition walks preservice school counselors step by step through the development, planning, implementation, and evaluation of small groups in school counseling. Written by professionals in the field, it offers thorough discussions of K-12 case studies and group examples from practicing school counselors. It also provides an excellent context for group work through a discussion of the pertinent theories and key research. The authors use the lens of real-world, school-based practice, strengths-based counseling, systems thinking, developmental psychology, and ASCA's National Model. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

group counseling for school counselors: *Group Counseling for School Counselors* Greg Brigman, Barbara Earley, 1991 Many ways of working with elementary through high school students in groups to provide maximum services in the minimum of time are presented in this book of 80 reproducible handouts. You get more than 100 fully designed group sessions on general topics such as self-concept, friendship, and refusal skills, to name just a few.

group counseling for school counselors: *Group Counseling in K-12 Schools* Kenneth R. Greenberg, 2013-09-15

group counseling for school counselors: *The Essential School Counselor in a Changing Society* Jeannine R. Studer, 2014-02-07 Jeannine R. Studer's *The Essential School Counselor in a Changing Society* offers a practical approach to helping students understand the methods and standards in contemporary school counseling. Integrating the new ASCA model as well as the

CACREP Standards across all areas of school counseling practice, this core text provides a unique and relevant perspective on the 21st century school counselor. Studer focuses on ethics and ethical decision making, as well as contemporary issues faced by today's counselor—such as crisis response, career counseling and advisement, group counseling, advocacy, and collaboration. The text begins with coverage of school counseling foundations, addresses intervention and prevention, and devotes the final section to enhancing academics through a positive school culture. “Not only does this text address the CACREP standards for school counseling but it also provides excellent examples and applications of school counseling within the ASCA National Model framework!” —Karen D. Rowland, Mercer University “This text is a valuable contribution to the profession, addressing the multi-dimensional and complex roles and responsibilities of the 21st century school counselor. It is a foundational text that counselor-educators can utilize throughout a master's degree program in mentoring interns into the profession.” —Diana L. Stephens, California Lutheran University

group counseling for school counselors: Group Work in Schools Bradley T. Erford, 2015-08-14 School counselors are often the only employees in school settings with any formal education in group work, and yet their training is typically a general course on how to run groups. *Group Work in Schools* provides an alternative training model; one that presents exactly what counselors need to know in order to successfully implement task-driven, psychoeducational, and counseling/psychotherapy groups in any educational setting. Additions to this newly updated second edition include: discussion topics, activities, case examples, integrated CACREP standards and learning outcomes, as well as an overall update to reflect the most recent research and knowledge.

group counseling for school counselors: Handbook of Group Counseling and Psychotherapy Janice L. DeLucia-Waack, Cynthia R. Kalodner, Maria Riva, 2013-12-02 The most comprehensive and thoroughly researched text available on this topic, *Handbook of Group Counseling and Psychotherapy, Second Edition* underscores the notion that group work is improved through increased collaboration between researchers and practitioners. Edited by renowned leaders in the field, this thoroughly updated and revised Second Edition explores current literature and research and offers suggestions for practice in psycho-educational, counseling, and therapy groups. The Handbook is divided into five main sections: current and historical perspectives, best practices, multicultural and diverse groups, groups in special settings, and an introduction to special topics.

group counseling for school counselors: Theories and Methods of Group Counseling in the Schools George Michael Gazda, 1976

group counseling for school counselors: The Handbook of Counseling Don C. Locke, Jane Myers, Edwin L. Herr, 2001-03-02 A landmark publication, *The Handbook of Counseling* surveys and defines the field of counselling - how it has developed, the current state of the discipline and profession, and where this dynamic field is going. The editors and contributors are leaders in the field, and book is sponsored by Chi Sigma Iota, the US national counselling honour society and a division of the American Counseling Association. Comprehensive in scope, the volume covers: the counselling profession, including its emergence and current status; the major approaches to counselling; settings, including community, school, and family; the different interventions including individual, work, career, and multicultural counselling; education and supervision; research strategies; critical and cutting-edge issues such as responses to social and professional diversity, computer applications, and the state of independent counselling practice

group counseling for school counselors: Introduction to Professional School Counseling Jered B. Kolbert, Laura M. Crothers, Tammy L. Hughes, 2016-06-10 *Introduction to Professional School Counseling: Advocacy, Leadership, and Intervention* is a comprehensive introduction to the field for school counselors in training, one that provides special focus on the topics most relevant to the school counselor's role and offers specific strategies for practical application and implementation. In addition to thorough coverage of the ASCA National Model (2012), readers will find thoughtful discussions of the effects of trends and legislation, including the Every Student Succeeds Act (ESSA), Response to Intervention (RtI), and School-Wide Positive Behavioral Intervention and Support (SWPBIS). The text also provides a readers with an understanding of how

school counselors assume counseling orientations within the specific context of an educational setting. Each chapter is intensely application oriented, with an equal emphasis both on research and on using data to design and improve school counselors' functioning in school systems. Available for free download for each chapter: PowerPoint slides, a testbank of 20 multiple-choice questions, and short-answer, essay, and discussion questions.

group counseling for school counselors: *Strengthening School Counselor Advocacy and Practice for Important Populations and Difficult Topics* Rausch, Meredith A., Gallo, Laura L., 2021-01-29 School counselors often struggle to feel confident in delivering effective assistance to students due to a variety of reasons that currently do not have enough research or information developed. This leads to a struggle for counselors to adequately address tough and relevant issues. With these issues remaining unaddressed, or addressed less effectively, there is a concern that school counselors cannot mitigate these issues due to not being adequately informed. This can lead to a lifetime of consequences for students. *Strengthening School Counselor Advocacy and Practice for Important Populations and Difficult Topics* presents emerging research that seek to answer the tough and often unaddressed questions, target present-day issues of student populations, and prepare school counselors to feel confident and competent in their counseling and advocacy practice. These chapters, using the newest information available, will address these concerns and provide the best counseling work possible for underserved populations. While covering research on counseling for students with chronic illnesses, mixed-statuses, family issues, minority students, LGBTQ+ youth, and more, this book is ideal for school counselors, counseling educators, practitioners, stakeholders, researchers, academicians, and students who are interested in school counseling and meeting the needs of diverse and important populations of students.

group counseling for school counselors: The School Counselor's Study Guide for Credentialing Exams Rita Schellenberg, 2013-06-19 The School Counselor's Study Guide for Credentialing Exams is the only study guide on the market based on the ASCA School Counselor Competencies, CACREP Standards, NBCC NCSCE content requirements, and the NCATE and NBPTS Standards. Designed to help users build knowledge and skills that are transferrable to any test format, it can be used to prepare for the NCSCE, Praxis II School Counseling Specialty Exam, NBPTS School Counseling national certification exam, Comprehensive School Counselor Education program exams, and state certification exams for professional school counseling. Each chapter aligns with one of the eight CACREP content areas for school counseling and covers in depth the material necessary to succeed on any of the exams. Also included in each chapter are case scenarios, guided reflection questions, and actual exam practice questions. A full-length practice exam is provided at the end with answers and explanations for correct and incorrect responses. Additional resources include a glossary of important terms and lists of ethical codes and competencies for various school counseling related organizations. Students and professionals seeking a professional school counselor credential will find this to be an invaluable tool in their exam preparation.

group counseling for school counselors: School Counselors as Practitioners Judy A. Nelson, Lisa A. Wines, 2024-06-25 *School Counselors as Practitioners*, Second Edition, is a hands-on, practice-based, task-oriented guide to being an effective school counselor. Thoroughly revised, this textbook continues to address the foundation of school counseling, the main duties of a school counselor, the skills needed to be successful, and what to expect as a school counseling professional. All these topics have been updated to include the current thinking, research and evidence-based practices, and challenges in school counseling. Additionally, interviews of principals, school counselors, and community leaders are included, which provide readers with the reality of how to navigate the waters of the comprehensive school counseling program. The chapter authors also highlight the necessity of designing, implementing, and evaluating the counseling program for continuous improvement. Online resources provide students with templates and handouts for on-the-job responsibilities, as well as quiz questions for every chapter. This updated edition is essential reading for counselor educators, graduate students enrolled in a school counseling program, supervisors of school counselors, including administrators, and practicing school

counselors.

group counseling for school counselors: Evidence-Based School Counseling Greg Brigman, Elizabeth Villares, Linda Webb, 2017-10-05 Evidence-Based School Counseling presents a unique method for training graduate students to become effective school counselors that is presented in a Tell, Show, Do, Coach approach to instruction and reflective of ASCA, CACREP, and CAEP standards. This method is based on three interrelated components: (a) the ASCA National Model, especially its Mindsets & Behaviors for Student Success and its related student competencies, (b) the extensive research base associated with social/emotional learning (SEL), non-cognitive factors and college/career readiness, and (c) evidence-based programs tied to this research base and suited to school counselor implementation. The text highlights how the new ASCA Mindsets & Behaviors for Student Success have been modeled after this research base and provides resources for school counselors to find evidence-based programs and interventions connected to this research. Evidence-Based School Counseling provides extensive practice and coaching so students can arrive at practicum and internship feeling confident, and they can hit the ground running as they start their careers.

group counseling for school counselors: Handbook of School Counseling Hardin L.K. Coleman, Christine Yeh, 2011-04-06 The mission of this forty-eight chapter Handbook is to provide a comprehensive reference source that integrates counseling theory, research and practice into one volume. It is designed to meet the needs of entry-level practitioners from their initial placement in schools through their first three to five years of practice. It will also be of interest to experienced school counselors, counselor educators, school researchers, and counseling representatives within state and local governments.

group counseling for school counselors: A School Counselor's Guide to Kim H. Pries, Janise G. Pries, 2012-10-15 A book for school counselors and counseling interns on how to provide group counseling. Covers planning, set-up, stages, administering, and evaluation of groups in the school setting.

group counseling for school counselors: The School Counselor's Desk Reference and Credentialing Examination Study Guide Rita Schellenberg, 2017-12-22 The School Counselor's Desk Reference and Credentialing Examination Study Guide, Second Edition is the only study guide and desk reference on the market that covers the latest ASCA School Counselor Competencies, CACREP Standards, and the CAEP and NBPTS Standards. It effectively prepares students for the Praxis II Professional School Counseling exams (5421 & 0420), NBPTS School Counseling National Certification exam, School Counselor Preparation Comprehensive exams, and state-specific certification exams for the professional practice of school counseling. This revised volume is designed to build knowledge and skills through end-of-chapter practice tests, a full-length practice exam with exam answers and rationales, guided reflections, and case studies. Additional resources include a glossary of important terms and a list of commonly used acronyms within the profession.

group counseling for school counselors: Counseling Children and Adolescents Jolie Ziomek-Daigle, 2025-03-07 Expansive and practical, Counseling Children and Adolescents offers graduate students the information they need to prepare for work in both school and clinical mental health settings (two CACREP specialty areas). This text includes not only content related to developmental and counseling theories but also information on evidence-based practices across the continuum of care, diagnosis and treatment of youth, and current trends such as integrated care, mindfulness, telehealth, and neuroscience. Unique to this book are sections on both the instructional and behavioral Response to Intervention (RtI) model and Positive Behavioral Interventions and Supports (PBIS), examples of evidence-based practices used across settings such as Student Success Skills, Check & Connect, and trauma-focused CBT, and a review of common mental health-related disorders most often seen in youth and treatment recommendations. Ethical and legal implications are infused throughout the book, as are CACREP learning outcomes. The new edition uses a trauma-informed and anti-racist lens and fills a gap in counselor preparation programs. A testbank is available to instructors at www.routledge.com/9781032532455.

group counseling for school counselors: School Based Group Counseling Christopher A. Sink, Christie Eppler, Cher Edwards, 2012 Extremely relevant, comprehensive, and hands on, SCHOOL BASED GROUP COUNSELING, International Edition guides readers through the process of developing, running, and evaluating quality small groups in K-12 school settings. Specifically focused on the school counseling profession, it provides an excellent context for group work through a discussion of the pertinent theories and key research. Its real-world emphasis includes K-12 case studies and group examples from practicing school counselors. The authors use the lens of real-world school-based practice, strengths-based counseling, systems thinking, developmental psychology, and ASCA's National Model—resulting in a professional, comprehensive, and well-balanced group counseling text for K-12 preservice school counselors.
