1917 movie questions answer key: *The Complete Kennections* Ken Jennings, 2025-07-29

The first new trivia book in more than a decade from Jeopardy! host Ken Jennings—based on his hugely popular online game “Kennections”! Five trivia questions. Five answers that share a secret theme. What’s the “Kennection”? Since 2012, Jeopardy! champion and host Ken Jennings has created a weekly puzzle—first appearing in Parade, then Mental Floss—involving a series of trivia questions whose answers have something in common. The trivia questions run the gamut of topics—from pop culture (movies, TV, music) to academic knowledge (history, geography, the arts) to lifestyle (food and drink, sports, hobbies). But the trickiest part might be finding the “Kennection” that links all five answers. Many are standard trivia categories (D-Day beaches! Presidential middle names! Santa’s reindeer! Batman villains!), but almost anything goes, so thinking outside the box is just as important as trivia knowledge. What do feet, McDonald’s, fingerprints, and St. Louis have in common? They all have arches. What about Mercury, Chihuahuas, electrons, and Rhode Island? They’re all the smallest of their kind. Columbia, Grease, and “I Ran” (by A Flock of Seagulls)? They’re homophones for nations of the world. For the first time, the Kennections canon is available in one convenient volume, with hundreds of new and updated quizzes. The Complete Kennections is the perfect gift for any Jeopardy! fan, trivia buff, or New York Times “Connections” puzzler.

1917 movie questions answer key: Gender-responsive approaches to the acceptability, availability and affordability of alcohol. Brief 11 World Health Organization, 2024-03-07
Gender-related norms persist in our societies, including in the consumption of alcohol. Despite knowing that men and women consume alcohol differently and are affected by its harm differently, alcohol control policies remain essentially gender blind. Highly gendered approaches to alcohol marketing and gender differences in patterns of alcohol consumption and its associated harm are well documented. Relatively little evidence has examined the different effects of population-level alcohol control policies on different genders, and even less has addressed how gender intersects with socioeconomic status, age, ethnicity, and other factors. Experiences from countries illustrate gendered approaches being used by the alcohol industry (Brazil and the United States) and the innovative ways that governments and civil society organizations are tackling the gendered effects of alcohol consumption. This includes promoting employment outside the alcohol industry (United Republic of Tanzania), developing gender-specific supports for alcohol consumption (Pakistan and Scotland), mobilizing civil society to enforce marketing bans (Sri Lanka) and creating culturally sensitive and culturally embedded policies (Aotearoa New Zealand). There is a clear need for policy-relevant research that supports an increased understanding of what works for gender-responsive approaches to reduce the harm caused by alcohol consumption.
